X-ADV

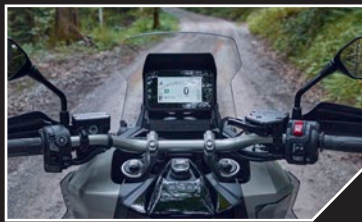

TAKE A RIDE ON THE WILD SIDE

Highly Visible Lighting

Twin LED Projector headlights use black-out Hidden Eye technology to make the DRL – which incorporate indicators, significantly improving safety and visibility for pedestrians and other road users.

5-Inch TFT Display

Highly visible in bright sunlight, with backlit 4-way handlebar switch for intuitive operation and loaded with the smartphone connectivity of Honda RoadSync for on-screen navigation and more.

Auto Cruise Control

The new system syncs perfectly with DCT and is easy to use and adjust, reducing fatigue on longer highway rides.

Adjustable Windscreen

Now even easier to move whilst seated and stationary with one hand.

Improved Storage Space

There is now an improved LED light within the compartment and a new luggage divider is available, to prevent your belongings from moving around when riding.

Updated Dual Clutch Transmission (DCT)

Through an extensive upgrade – alongside Throttle by Wire optimization – DCT now reacts much more smoothly starting, stopping or during a low-speed U-turn.

- Please note that the figures provided are results obtained by Honda under standardised testing conditions prescribed by WMTC. Tests are conducted on a rolling road using a standard version of the vehicle with only one rider and no additional optional equipment. Actual fuel consumption may vary depending on how you ride, how you maintain your vehicle, weather, road conditions, tyre pressure, installation of accessories, cargo, rider and passenger weight, and other factors.
- These models come with a 2 year or 20,000km manufacturing warranty (whichever comes first).
